Avocado prices remain elevated due to limited supplies from Mexico. U.S avocado imports from Mexico last week were down 40% from the same month last year. Still, some modest improvement in avocado supplies are anticipated which should lessen the upside price risk from here. The Hass 48 count avocado market during October has averaged below the previous month in six of the last seven years. The Idaho potato markets are trading near some of their lowest levels in the last decade as the harvest builds. The downside price risk in the potato markets from here is almost certainly nominal.
